

Plooto

Automate your payments, control your cash.

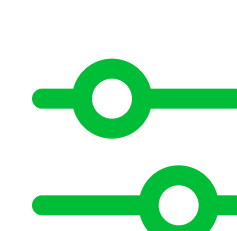

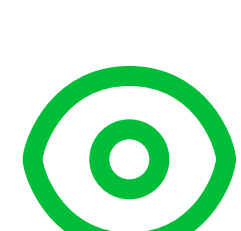

Plooto's payment automation platform helps small businesses and their accountants manage AP and AR all in one place.

Make financial growth attainable with Plooto

Running a business involves a lot of tedious processes. Plooto cloud-based platform lets you streamline all of that with easy automation. Approve invoices, pay vendors, and receive electronic payments in a snap. Spend less time on your payments, and more time on growing your business.

Why business owners love Plooto

-  **Cash flow confidence**
Post-dating payments and real-time tracking allows you to easily maximize your cash flow.
-  **Custom workflows**
Tailor payment workflows to your team's needs. Easily route payments to the right person and secure timely approval.
-  **Error elimination**
Two-way automatic sync with QuickBooks, Xero and NetSuite eliminates errors and increases accuracy.
-  **Focus on what matters**
Safely delegating payments without sharing banking credentials means more time focused on growth.
-  **Secure payment practices**
Securely manage vendor and customer banking information (no more spreadsheets, no more void cheques).
-  **A trusted partner**
We support 10,000+ businesses by exceeding regulatory and financial security standards.

Do you partner with an external accountant or bookkeeper to manage your books?

Plooto offers solutions and plans for accountants and bookkeepers to manage their client's payments. If yours already uses Plooto, discuss having them invite you to as a client on our platform.

They can also visit our [accountant and bookkeeper page](#) to learn more about exclusive offers and our 30-day free trial.
